

# BALAGIE HYDARA

Computer Specialist | React, Node.js, Python

332-600-2314 | [bhydara8@gmail.com](mailto:bhydara8@gmail.com) | [LinkedIn](#) | [GitHub](#) | [Projects](#)

## SUMMARY

Computer specialist with experience in software development and IT support. Skilled in React, Node.js, Python, JavaScript, SQL, and AWS, with hands-on experience building internal applications, REST APIs, and troubleshooting systems for large user bases.

## EXPERIENCE

### NYC Department of Social Services

May 2024 - Feb 2026

#### IT Specialist

New York

- Provided technical support for 5,000+ employees, resolving hardware and software issues.
- Resolved 60+ IT support tickets per week, improving response times and user productivity.
- Deployed and configured 900+ computers, printers, and peripherals for new and existing employees.
- Managed 50+ IT support tickets weekly, maintaining accurate service records and timely issue resolution.
- Documented 100+ weekly IT support requests, improving issue tracking and follow-up.
- Installed, configured, and maintained 900+ Windows workstations, minimizing downtime.
- Performed system updates and applied security patches for 900+ devices, reducing security risks.
- Troubleshooted computers, printers, and IT equipment for 5,000+ employees, minimizing downtime.

### Human Resources Administration

Mar 2023 - Mar 2024

#### Software Engineering

New York

- Developed and deployed a React web-based IT ticketing system, reducing ticket processing time by 50%.
- Built 10+ RESTful APIs using Node.js, Express, MongoDB, JWT, and bcrypt for secure authentication and authorization, supporting 5,000+ employees.
- Implemented 10+ CRUD features using React, Node.js, Express, and MongoDB, reducing manual data processing by 90% and improving workflow efficiency by 300%.
- Optimized MongoDB queries across 10+ application features, reducing response times by 40%.
- Used Git and GitHub to manage 500+ code commits, improving team collaboration and code quality.
- Deployed 10+ application releases on AWS, ensuring 99.9% uptime and reliable application availability.
- Tested and debugged 50+ frontend and backend issues, improving application stability and user experience.

## SKILLS

- **Programming:** Python, HTML, JavaScript, TypeScript, C++, SQL, MATLAB, React, Next.js, Node.js, REST APIs, MongoDB, AWS, Docker, CI/CD, Git, ASP.NET, VHDL, Verilog, Counters, Decoders, Multiplexers
- **AI & SWE:** OpenAI API, LLMs, RAG, Prompt Engineering, PyTorch, Pandas, NumPy, Algorithms, Data Structures, OOP, Agile/Scrum
- **IT Operations:** Computer Troubleshooting, Hardware & Software Installation, Printer Maintenance, Ticket Management, IT Documentation, Asset Management
- **Networking:** VLANs, Inter-VLAN Routing, NAT, DHCP, ACLs (Cisco Routers/Switches)
- **Office Software:** Word, Excel, PowerPoint, Outlook, Google Docs, Google Sheets, Google Drive, Linux

## EDUCATION

### New York City College of Technology - CUNY

Jun 2022 - Jun 2026

Bachelor of Technology, Computer Engineering

- **GPA:** 3.7/4.0
